Independent Auditors' Report

We have audited the accompanying financial statements of the 2004 Election 2005 and 2006 Series General Obligation Bond (the "Fund") of Maricopa Unified School District (the District), as of and for the year ended June 30, 2013, and the related notes to the financial statements, as shown on pages 6 - 9.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

As discussed in Note 1, the financial statements present only the General Obligation Bond and do not purport to, and do not, present fairly the financial position of the Maricopa Unified School District as of June 30, 2013, the changes in its financial position, or, where applicable, its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the General Obligation Bond of the Maricopa Unified School District as of June 30, 2013, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

MARICOPA UNIFIED SCHOOL DISTRICT
PROPOSITION 39 GENERAL OBLIGATION BONDS
2004 ELECTION 2005 & 2006 SERIES BOND MEASURE
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2013

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

In the Election of 2004, the District voters authorized \$6,000,000 in General Obligation Bonds for the purpose of funding projects including upgrades of the gymnasium, auditorium, library/computer lab, playing surfaces, playground equipment, fencing and landscaping, the repair of classroom interiors, roofs and heating, ventilation and air conditioning systems and improvements to other systems and facilities to ensure student health and safety and to pay costs of Bond issuance. In response, an advisory committee to the District's Governing Board and Superintendent, the 2005 Bond Oversight Committee, should have been established. The Committee's oversight goals include: advising on bond construction priorities, reviewing school bond construction plans, verifying that project plans are in alignment with the budget, and ensuring compliance with conditions of the 2004 Election 2005 & 2006 Series Bond Measure.

The bond proceeds and uses are accounted for in the District's Bond Building Fund. The statements presented are for the individual Building Fund and are not intended to be a complete presentation of the District's financial position or results of operations.

Accounting Policies

The Maricopa Unified School District accounts for financial transactions in accordance with the policies and procedures of the California Department of Education's *California School Accounting Manual*. The accounting policies of the District conform to generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB) and the American Institute of Certified Public Accountants (AICPA).

Basis of Accounting

The financial statements of the Building Fund are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the current period or within 60 days after year-end. Expenditures are generally recognized under the modified accrual basis when the related liability is incurred. The exception to this general rule is that principle and interest on general obligation long-term debt, if any, is recognized when due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt are reported as other financing sources.

Encumbrances

Encumbrance accounting is used in all budgeted funds to reserve a portion of applicable appropriations for which commitments have been made. Encumbrances are recorded for purchase orders, contracts, and other commitments when they are written. Encumbrances are liquidated when the commitments are paid. All encumbrances are liquidated as of June 30.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenditures during the reporting period. Actual results could differ from those estimates

NOTE 2 – CASH

Policies and Practices

The District is authorized under California Government Code to make direct investments in local agency bonds, notes, or warrants within the State; U.S. Treasury instruments; registered State warrants or treasury notes; security of the U.S. Government, or its agencies; bankers acceptances; commercial paper; certificates of deposit placed with commercial banks and/or savings and loan companies; repurchase or reverse repurchase agreements; medium term corporate notes; shares of beneficial interest issued by diversified management companies; certificates of participation, obligation with first priority security; and collateralized mortgage obligations.

Cash in County Treasury – The District is considered an involuntary participant in an external investment pool as the District is required to deposit all receipts and collections of monies with their County Treasurer (Education Code Section 41001). The fair value of the District's investment in the pool is reported in the accounting financial statements at amounts based upon the District's pro-rata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.

Limitations as they relate to interest rate risk, credit risk, and concentration of credit risk are described below:

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District manages its exposure to interest rate risk by investing in the County Treasury. The Fund maintains an investment with the Kern County Investment Pool with a fair value of approximately \$3,276,819 and a book value of \$3,276,819.

Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The investment with the Kern County Investment Pool is rated AA/MR1 by Moody's Investor Service.

Concentration of Credit Risk

The investment policy of the District contains no limitations on the amount that can be invested in any one issuer beyond the amount stipulated by the California Government code. District investments that are greater than 5 percent of total investments are in either an external investment pool or mutual funds and are therefore exempt.

NOTE 3 – ACCOUNTS RECEIVABLE

Accounts receivable at June 30, 2013 in the amount of \$4,602 represent the amount due from the Kern County Treasurer for interest earnings for the quarter ended June 30, 2013.

NOTE 4 – INTERFUND BALANCES AND ACTIVITIES

Due To and From Other Funds

Balances due to and due from other funds at June 30, 2013, consisted of the following:

<u>Due to Fund</u>	<u>Due From Fund</u>	<u>Amount</u>
General Fund	Building Fund	\$70,000

The General Fund in January 2013 transferred \$70,000 in error to the Building Fund. The amount is to be repaid to the General Fund.

NOTE 5 – 2004 ELECTION - 2006 SERIES GENERAL OBLIGATION BONDS

The bonds were authorized at an election of the registered voters in 2004 at which more than 55 percent of the voters authorized the issuance and sale of \$6,000,000 general obligation bonds. The bonds are general obligations of the District. The County is obligated to levy ad valorem taxes upon all property within the district for the payment of interest and principal of the bonds.

The District's General Obligation Bonds of \$2,999,990 with interest of 4.0% to 4.5% from the election of 2004 – Series 2005B.

<u>Year End</u> <u>June 30,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2014	\$ 52,028	\$ 176,592	\$ 228,620
2015	48,133	185,487	233,620

Independent Auditors' Report on Internal Control Over Financial Reporting
and on Compliance and Other Matters Based on an Audit of Financial
Statements Performed in Accordance with Government Auditing Standards

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the 2004 Election 2005 and 2006 Series General Obligation Bond (the "Fund") of Maricopa Unified School District, as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise 2004 Election 2005 and 2006 Series General Obligation Bond (the "Fund") of Maricopa Unified School District's basic financial statements, and have issued our report thereon dated November 30, 2013.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Maricopa Unified School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Maricopa Unified School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Maricopa Unified School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether 2004 Election 2005 and 2006 Series General Obligation Bond (the "Fund") of Maricopa Unified School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditors' Report

We have examined the Maricopa Unified School District's compliance with the performance requirements for the Proposition 39 General Obligation Bonds 2005 & 2006 Series Bond Measure for the fiscal year ended June 30, 2013, under the applicable provisions of Section 1(b)(3)(C) of Article XIII A of the California Constitution and Proposition 39 as they apply to the bonds and the net proceeds thereof. Management is responsible for the Maricopa Unified School District's compliance with those requirements. Our responsibility is to express opinions on the Maricopa Unified School District's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence about the Maricopa Unified School District's compliance with those requirements and performing such other procedures, as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. Our examination does not provide a legal determination on Maricopa Unified School District's compliance with specific requirements.

In our opinion, except for the items described in the accompanying schedule of findings and recommendations, the Maricopa Unified School District complied, in all material respects, with the aforementioned requirements for the fiscal year ended June 30, 2013.

PERFORMANCE AUDIT
JUNE 30, 2013

OBJECTIVES

The objectives of our performance audit were to:

- Determine the expenditures charged to the Maricopa Unified School District Bond Building Fund;
- Determine whether expenditures charged to the Bond Building Fund have been made in accordance with the bond project list approved by the voters through the approval of the 2004 Election 2005 & 2006 Series Bond Measure;
- Note any incongruities or system weaknesses and provide recommendation for improvement;
- The District and the Citizen's Oversight Committee fulfilled their responsibilities under Proposition 39;
- Provide the District Board and the Citizen's Oversight Committee with a performance audit as specified under the requirements of the California Constitution and Proposition 39.

SCOPE OF THE AUDIT

The scope of our performance audit covered the period of July 1, 2012 to June 30, 2013. The expenditures tested included all object and project codes associated with the bond projects. The propriety of expenditures for capital projects and maintenance projects funded through other State or local funding sources, other than the proceeds of the bonds, were not included within the scope of our audit. Expenditures incurred subsequent to June 30, 2013 were not reviewed or included within the scope of our audit.

MARICOPA UNIFIED SCHOOL DISTRICT
PROPOSITION 39 GENERAL OBLIGATION BONDS
2004 ELECTION 2005 & 2006 SERIES BOND MEASURE
PERFORMANCE AUDIT
JUNE 30, 2013

BACKGROUND INFORMATION

In November 2000, the voters of the State of California approved Proposition 39 authorizing the issuance of general obligation bonds by California public school districts and community colleges under certain circumstances and subject to certain conditions. In 2004, a general obligation bond proposition of the Maricopa Unified School District was approved by the voters of the District. The Bond Measure authorized the District to issue up to \$6,000,000 of general obligation bonds to finance various capital projects and related costs, as specified in the bond measure provisions.

Pursuant to the requirements of Proposition 39 and related state legislation, the Board of Education of the District should establish a Citizen's Bond Oversight Committee and appoint its initial members. The principle purpose of the Citizen's Bond Oversight Committee, as set out in state law, is to inform the public as to the expenditures made using the proceeds of the bond issued pursuant to the bond authorization. The Citizen's Bond Oversight Committee is required to issue at least one report annually as to its activities and findings.

Section 1(b)(3)(C) of Article XIII A of the California Constitution requires the District to conduct an annual independent performance audit to ensure that the proceeds of the bonds deposited into the Bond Building fund have been expended only for authorized bond projects.

MARICOPA UNIFIED SCHOOL DISTRICT
PROPOSITION 39 GENERAL OBLIGATION BONDS
2004 ELECTION 2005 & 2006 SERIES BOND MEASURE
PERFORMANCE AUDIT
JUNE 30, 2013

PROCEDURES PERFORMED

We obtained the general ledger prepared by the District for the period July 1, 2012 to June 30, 2013 for the Bond Building Fund. Within the period audited, we obtained the actual invoices and other supporting documentation for expenditures to ensure compliance with the requirements of Proposition 39 and the 2004 Election with regards to the approved bond projects list. We performed the following procedures:

- Reviewed the projects listed to be funded with general obligation bond proceeds as set out in the 2004 Election documents;
- Selected a sample of expenditures for the period July 1, 2012 to June 30, 2013 and reviewed supporting documentation to ensure that such funds were properly expended on the authorized bond projects;
- Verified that funds from the Bond Building Fund were generally expended for the purpose of funding projects including upgrades of the gymnasium, auditorium, library/computer lab, playing surfaces, playground equipment, fencing and landscaping, the repair of classroom interiors, roofs and heating, ventilation and air conditioning systems and improvements to other systems and facilities to ensure student health and safety and to pay costs of Bond issuance. Furthermore, we verified that funds expended from the Bond proceeds were not used for salaries of school administrators or other operating expenses of the District.
- Reviewed compliance with requirements for membership and meeting procedures.

MARICOPA UNIFIED SCHOOL DISTRICT
PROPOSITION 39 GENERAL OBLIGATION BONDS
2004 ELECTION 2005 & 2006 SERIES BOND MEASURE
PERFORMANCE AUDIT
JUNE 30, 2013

CONCLUSION

Based upon our procedures performed, we found that for the items tested, the Maricopa Unified School District has properly accounted for the expenditures of the funds held in the Bond Building Fund – 2004 Election 2005 & 2006 Series Bond Measure and that such expenditures were made for authorized bond projects. Furthermore, it was noted that the funds held in the Bond Building Fund – 2004 Election 2005 & 2006 Series Bond Measure, and expended by the District, were not expended for salaries of school administrators or other operating expenditures.
